RESPONSE TO RESTRICTION REQUIREMENT

Sir:

In response to the restriction requirement, mailed March 13, 2003, the period for response to which is set to expire on April 13, 2003, Applicant hereby elects Group II, and Species A, without prejudice or disclaimer.

REMARKS

Restriction:

The Examiner has required a restriction between the following groups:

Group I: claims 1-14 and 46, drawn to a method of enhancing therapeutic treatments, classified in class 607 subclass 100

Group II: claims 15-45 drawn to an apparatus for establishing EM fields, classified in class 607, subclass 115.

Applicant elects the claims of Group II, *with traverse*, i.e., claims 15-45, for prosecution in the instant application. Applicant reserves the right to file divisional applications for the subject matter covered by the remaining groups. The inventor for the invention of the elected claims is the same as the inventor of record in the application.

Serial Number: 09/737,546

Election of Species:

The Examiner has also required a restriction between the following species:

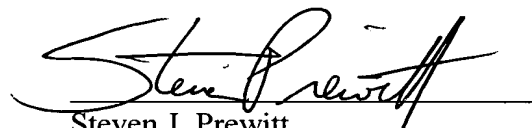

Species A, a plurality of sources, and
Species B, a single source.

Applicant elects the claims associated with Species A, *with traverse*, i.e., claims 1-45, for prosecution in the instant application. Applicant reserves the right to file divisional applications for the subject matter covered by the remaining groups. The inventor for the invention of the elected claims is the same as the inventor of record in the application.

Applicant hereby indicates that claims 15-21, and 40-44 are generic claims to all of the above-identified species. If the Examiner disagrees with this assessment, the Examiner is invited to contact Steven J. Prewitt at (703) 591-2664.

In view of the foregoing, it is respectfully submitted that this application is now in condition for allowance and favorable action is respectfully solicited.

Respectfully submitted,
